Dear Sir,

You showed us that the whole world is just forces, motion
and curiosity — and that every question is allowed.

May your day be as bright and unstoppable as the ideas you spark.

With love and gratitude,

Pavit Singh

THE MESSAGE

Dear Sir,

Between maps, dates and stories, you taught us that history and words are just two ways of understanding people.
May your day be as rich and memorable as the lessons you tell.

Dear Sir,

You made numbers feel like puzzles instead of fears, and proved that every wrong step is just part of working it out. May your day add up to joy, multiplied by everything you deserve.
